

SALE 81 REALISES \$2.6 MILLION

Important Australian, New Zealand & World Coins, Medals & Banknotes

Total: \$2,614,779

Lots: 4046

118% sold by value*

In the first two sessions the Australian Commonwealth coin series was virtually all sold with many bulk lots bringing over estimate and some multiples of estimate. In the mis-strikes a new record was set for a ten cents obverse muled on a year 2000 dollar (lot 87, estimate \$400) when it realised \$3,029 after spirited bidding. The high price is explained by the condition, the finest yet seen of this rare mule which normally only surfaces in very fine condition. Top price went to a 1974 twenty cents struck from two obverse dies (lot 81, estimate \$3,000) at \$5,243. A set of florins 1910-1963 (lot 335, estimate \$4,000) realised \$9,320 and a set of shillings, both from the *Kerry Morphett Estate* (lot 346, estimate \$2,000) realised \$5,592. An incomplete set of pennies from 1913 with many choice from 1938 (lot 361, estimate \$700) realised \$3,379 after determined bidding. The bulk lots and key date halfpennies from the *Morphett Estate* realised well over estimate after several bidding duels, the 1915's (lot 490, estimate \$6,000) realised \$22,135 (or roughly \$20 each), the 1918's (lot 491, estimate \$4,000) realised \$9,204 (approximately \$8 each) and the 1939 kangaroos (lot 492, estimate \$4,000) realised \$17,941 (roughly \$13 each), all to the same buyer in the room.

The British gold sold generally over estimate with one local collector being particularly successful, obtaining ten of the eighteen hammered gold lots and the Charles II five guineas, the top price for the gold (lot 635, estimate \$9,000) at \$13,398 against another local collector. The silver and copper generally sold around estimate. An attractive Cromwell halfcrown (lot 875, estimate \$3,500) realised \$4,311 to the previously mentioned underbidder. Highest price went to the best of five James II crowns (lot 832, estimate \$6,000) at \$5,825 to a Sydney collector who also bought the George II Lima crown (lot 889, estimate \$2,800) at \$2,913. However the outstanding result went to the George III oval counterstamp on a Tuscany silver francescone (lot 917, estimate \$500) realising a record \$16,077. The same buyer, believed to be representing an English trader, was successful in purchasing the 1887 pattern crown by Spink (lot 1006, estimate \$1,500) at \$4,544. In the British Historical Medals many lots realised multiples of estimate, particularly the anti-slavery medals from the *Caroline Simpson Estate*, which featured in *The Financial Review* and *Sydney Morning Herald* (lots 1197, 1199, each estimate \$100) and realised \$932 and \$874 respectively, both being bought by a United States dealer. An incredible result went to the Prof Holloway medal (lot 1202, estimate \$60) which realised \$932, going to a Sydney dealer after a prolonged bidding duel.

In the Australian Historical Medals section a once-off rowing and athletics group of six in gold and silver (lot 1223, estimate \$3,000) realised \$9,553 after a contest between two determined collectors. This group was made by Evan Jones of Sydney as the first medal had his name stamped on the edge.

The evening session saw mixed results, some Proclamation coins brought strong prices, a 1797 twopence (lot 1279, estimate \$1,000) realised \$1,398 while a penny 1797 (lot 1284, estimate \$700) realised \$1,142, both records for our sales. The Adelaide Pound (lot 1303, estimate \$60,000) realised \$58,250, a good result against its last in Sale 41 (March 1993, lot 1236) of \$12,000. The Sydney Mint sovereigns remained largely unsold as they had when offered in the previous two sales and were

unwanted on the night. The 1855 halfsovereign sold below estimate due to surface damage but still managed a respectable \$27,960 (lot 1336, estimate \$35,000). This coin had been acquired by the vendor in 1963 for £5 (or ten dollars). The remaining gold failed to attract significant interest.

The proof 1938 crown (lot 1459, estimate \$30,000) realised \$34,950 and was bought by a Sydney dealer. It was originally obtained from D.Raymond in 1939. The price was possibly restrained due to heavy uneven toning caused by its paper wrapping over many years. Top price in the florins went to the 1923 (lot 1483, estimate \$10,000) at \$10,485. The sixpences, which were generally choice, saw strong results; the 1911 (lot 1501, estimate \$2,000) realised \$2,680, the 1916M (lot 1503, estimate \$3,000) realised \$3,262 and the 1920M (lot 1506, estimate \$2,000) realised \$3,029. The 1922/1 overdate threepence (lot 1516, estimate \$8,000) maintained the strength of recent results, selling for \$9,320. The four 1930 pennies were unsold at their estimates, suggesting the prices could come back from recent highs to effect sales. Choice later date pennies sold well, for example the 1947 Perth (lot 1561, estimate \$200) realised \$699. In the halfpennies a 1915H (lot 1569, estimate \$1,500) realised \$3,029 and a 1918I (lot 1573, estimate \$3,000) realised \$4,660, both being from the *Kerry Morphett Collection*. All 1923 halfpennies sold, the best being lot 1581 (estimate \$6,000) which realised \$5,126.

The World Silver & Bronze generally sold well with several lots going beyond estimate. The German silver five marks and thalers were subdued with many remaining unsold. The United States material fared better and in the main sold over estimate, some dramatically, for example the Lincoln cent 1909S (lot 1912, estimate \$150) realised \$489, the 1806 half dollar (lot 1925, estimate \$2,600) realised \$5,243, the Cook Hawaiian Sesquicentennial Commemorative half dollar (lot 1936, estimate \$1,400) realised \$3,087. The best result in World Gold went to the William IV E.I.C. proof two mohurs 1835 (lot 2043, estimate \$5,000) realising \$6,990. Again, the United States material sold over estimate with an Indian head 1913 half eagle (lot 2115, estimate \$200) realising \$536.

The New Zealand Waitangi proof set realised a new high for our auctions realising \$9,320 (lot 2168, estimate \$9,000), a choice 1936 florin realised a record \$4,777 (lot 2178, estimate \$4,000) and a 1935 threepence (lot 2188, estimate \$1,600) realised \$1,806. Highlights in the New Zealand token collection formed by W.F.W.Meek were the Hall/Kangaroo & Emu penny (lot 2249, estimate \$5,000) at \$8,039, the Milner & Thompson Maori head/Maori scene small size penny (lot 2269, estimate \$17,500) realised a new world-record for a New Zealand token of \$29,125 after determined bidding between two collectors, one in the room and one from the United States. The Morrin penny (lot 2271, estimate \$1,500) at \$3,379 and the Wallace halfpenny (lot 2287, estimate \$400) at \$1,049 were further highlights. In the Australian tokens some highlights were a Geo. Petty penny (lot 2371, estimate \$150) that realised \$1095, a J.C.Thornthwaite 1854 threepence (lot 2390, estimate \$4,000) realised a new record \$5,010 while a Hogarth Erichsen & Co 1858 threepence (lot 2392, estimate \$1,400) realised \$3,029. An Internment Camp five shillings (lot 2408, estimate \$2,500) realised \$3,612, the rest of the set (lot 2409, 2412-4, estimate \$1,550) realised \$2,272.

In the World Banknotes the two early Fiji issues sold around estimate, the ten shillings 1918 (lot 2456, estimate \$2,000) realised \$2,447 and the one pound 1917 (lot 2457, estimate \$2,000) realised \$2,330. However, the highlight of this section was the Malay one thousand dollars 1953 (lot 2500, estimate \$10,000) which realised a world-record for the issue of \$61,745 to a phone bidder against several floor bidders. The note had been featured on the front cover of the Banknote Reporter (USA).

The New Zealand notes were well-supported with several collectors and dealers flying in for the event and creating much anticipation. The *John Fyfe Collection* saw several record prices, for example a Union Bank one pound, 1923 (lot 2629, estimate \$5,000) realised \$6,408, a Lefeaux one pound 1934 (lot 2636, estimate \$1,500) realised \$2,447, a Fiji overprint one pound (1940) (lot 2640, estimate \$2,000) realised \$4,427, a Hanna fifty pounds (lot 2648, estimate \$5,000) realised \$8,155 and a Wilks two dollar star note, prefix OAZ (lot 2667, estimate \$6,000) realised \$12,000, this time to an Australian collector. These are all world records for the notes. The Lefeaux fifty pounds with the lowest known serial (lot 2562, estimate \$17,500) realised \$20,155 to a New Zealand collector in the room, well up from the \$4,500 it made ten years ago in Sale 51. Another strong result this time

to a Melbourne collector through the book went to a Bank of New Zealand five pounds 1922 (lot 2520, estimate \$2,000) realising \$4,427. The Scottish notes, nearly all from one collection, generally sold over estimate

A record attendance was present for the night session of Australian notes with much anticipation for what may be the most valuable numismatic lot ever offered outside the United States. A contingent of news media heightened the sense of importance. The auctioneer called for a bid at the estimate of \$1.2 million and within a few moments a bidder offered \$900,000 to be countered by another bid of \$950,000 and then the same bidder offered \$1 million. The auctioneer called for more bids however none eventuated and the lot was referred to the vendor for further negotiation. Had a unique opportunity been missed to own this invaluable item of Australian economic history?

Throughout the session there was plenty of active bidding with most lots realising above estimate. Outstanding results went to the Collins/Allen five pounds (lot 2923, estimate \$25,000) that realised a record \$48,930 and the Kell/Heathershaw Note Issue Dept five pounds (lot 2926, estimate \$25,000) that realised a world record \$67,570 to a private collector against determined floor bidders. A series of consecutive pairs of pre-decimal issues did well against estimate, some more than doubling their estimate, for example ten shillings (1942) (lot 2841, estimate \$600) realised \$1,689, ten shillings (1952) (lot 2850, estimate \$600) realised \$1,864, five pounds (1949) (lot 2943, estimate \$2,500) realised \$5,825, five pounds (1952) (lot 2948, estimate \$3,000) realised \$6,757 and ten pounds (1943) (lot 2962, estimate \$6,500) realised \$11,883. An outstanding example of a single ten pounds, Riddle/Sheehan (1934) (lot 2961, estimate \$10,000) realised a record \$18,640.

Of the ancient coins, the Roman Imperial issues were most popular with a majority being sold. A Caracalla sestertius (lot 2510, estimate \$2,500) realised \$3,495 while a non-portrait Caesar denarius (lot 3398, estimate \$1,000) realised \$1,398. A gold aureus of Caesar (lot 3156, estimate \$2,500) realised \$3,612 and a Diocletian aureus (lot 3165, estimate \$6,000) realised \$6,058. In the Indian series many bids were received from the two Queen Victoria mohurs; lot 3660 (estimate \$750) realised \$1,142 and lot 3661 (estimate \$350) realised \$1,049. From a deceased estate a Rolex wristwatch (lot 3688, estimate \$700) realised \$2,447 after spirited bidding.

The war medals section and stamps completed the auction on the Friday afternoon. Some highlights were Boulton's Trafalgar Medal 1805 (lot 3765, estimate \$400), which realised \$932, a three bar Erimea Medal (lot 3766, estimate \$400) realised \$1,165, the 'Thin Red Line' Crimea group of four (lot 3796, estimate \$7,250) realised \$9,20, a Military Medal group of six (lot 3807, estimate \$2,500) realise \$3,378 after many bids were received. Strong results in the Australian medals went to a Military Medal group of four (lot 3858, estimate \$4,000) that realised \$5,825 as did the next lot (estimate \$3750). A New Zealand Military Medal group of five (lot 3885, estimate \$2,000) sailed past estimate to realised \$4,194. A Duke of Edinburgh's Highland Volunteer Rifle Corps (NSW) sporran (lot 3909, estimate \$500) was chased to \$2,563 by two resolute floor bidders. A Western Australian HMAS *Sydney Emden* medal (lot 3918, estimate \$1,000) broke new ground and realised \$2,913.

Overall this was a well-received sale with a near record number of absentee bidders and nearly 200 floor bidders attending. Eighty per cent of lots were sold with those sold bringing 20% over estimate. This was a fitting way to commemorate the Company's completion of its first thirty years in business in Sydney. Our next sale takes place in Melbourne 25-27 July and we are accepting lots until Friday May 26th.

Hammer prices – Sale 81 (not including 16.5% buyer's premium & GST)
