In 1918, there was a shortage of postage stamps in the city of Raseiniai after the German Occupation Authority allowed the organisation of the post-offices in Lithuania. In December of 1918, the Kadushin Printing Establishment was commissioned to produce some interim stamps using a very basic format - the 15k green stamp. The first printing was 14,400 stamps printed on 300 sheets of 48 stamps. The second printing was 22,224 stamps printed on 463 sheets of 48 stamps. Stamps were printed on a white, unwatermarked paper, no gum, and perforated 11 1/2. The issue was authorized by the Postmaster in Kaunas.

Two types are recognized by the frames: Type I - open mitred corners, and Type II - closed straight overlapping corners, Type I stamps (frames) are found in positions 2 through 6 (on each stamp in a vertical column). Type II stamps (frames) are found in positions 1, 7 and 8.

The three-ring postmarker (Fug. 1597 red-orange) was a provisional red-orange circular cancel of 34 mm diameter has been used on Raseiniai stamps from the second printing. Known dates are between 1.II.1919 and 22.III.1919 (as seen in this collection).

The steamship 'Admella' of 500 tons was built in Glasgow in 1857. Taking her name from the first syllables of ADelaide, MELbourne and LAunceston, she commenced service between Adelaide and Melbourne in August 1858.

The following is an extract from the S.A.N.J. July 1950:

"The Steamship, 'Admella', left Port Adelaide on Friday, August 5, 1859, bound for Melbourne carrying 82 passengers and a crew of 31. Included in the cargo were four racehorses which were to take part in the first Melbourne Cup. The story of the tragic loss of the ship is one of epic heroism mixed with almost unbelievable ill-luck which dogged the rescue attempts. Late on Friday afternoon, due to a heavy swell, a mishap occurred to one of the horses, soon after the 'Admella' had passed Cape Willoughby and the ship was brought around so that the frightened animal could be quietened. The change in course apparently caused some confusion because of the lack of landmark and the subsequent misreading of the compass. Around about 4.30 on Saturday morning the ship ran onto Carpenter's Rocks, a sunken reef between Robe and Port MacDonnell."
