\$70,000

Ex C.J.Cerutti Estate, from Noble Numismatics Sale 47 (lot 3477) and private purchase from The Rare Coin Company.

The notes were printed in 1916 without signatures. The addition of signatures occurred later, but exactly when cannot be established. On 5 February 1920, the Treasurer of the Commonwealth (Mr Watt), announced that passengers bound for foreign countries were only to take as much Australian silver coin as was necessary for the trip, but in no case was the total to exceed £3.0.0. The move was initiated by the extraordinary rise in the price of standard silver, and a shortage of silver coin being experienced, probably because of that factor. It was stated that an issue of 5/- notes was contemplated to ease the shortage of silver coin. The plates to print the notes had been prepared and an amendment was to be sought to enable their issue. Later the Commonwealth Bank Act had included in it the authority to issue 5/- notes. Such notes however, were never issued. It would appear that a total of 1,020,000 notes were printed with virtually all being burned in 1922.

2687*

Ten pounds, Kell/Collins (1925), issued Specimen note, with numbers U/1 000218, serial number and signatures in black, watermarked basketweave pattern around edges '£10' '£10' above 'Commonwealth' below 'of Australia', perforated 'Cancelled' across note (153mm long) an upset cancellation, with 22mm high letters, two holes 9mm in diameter to left of the note and with 1mm black diagonal lines on both sides of the note, (R.54, Vort-Ronald 46 [Fig.68 illustrated U/1 000211 without diagonal black lines], McDonald 77b). *Crisp, nearly uncirculated and extremely rare, the only specimen note of this type ever offered at auction.*

\$40,000

Ex Noble Numismatics Sale 58 (lot 4876) and private purchase from The Rare Coin Company.

A total of 866,000 were printed with this signature combination which include 347,000 issued in 1925. This number is recorded as part of a group of 22 numbers used for specimen notes (p.74 Vort-Ronald). This is the third lowest number recorded and a unique combination of the second type cancellation for 'Cancelled' with the additional diagonal line cancellation used in the fourth specimen cancellation. It suggests the note was initially cancelled as a Specimen note in the mid 1920s and recancelled with the diagonals characteristic of Specimen issues from the 1936 notes. Michael Vort-Ronald discussed this issue in 'Australian Banknotes' on pages 71-75 in chapter 7 on Specimen notes and pages 200-202 on the ten pounds note issue.
