Philip Russell was one of fourteen children of James Russell and his wife Elizabeth. They were a tenant of Kinraig Farms in Fife, Scotland. Philip Russell sailed to Australia in 1842 on board the "Calcutta" with his cousin, Robert Simpson, and then they travelled to Hobart Town. Early in 1843 they moved to Port Phillip and in March they purchased at auction the insolvent estate of J.D.Baillie that included about 3,500 sheep and lambs. Philip had been a farmer at Benson, East Lothian in Great Britain. Two years later he took over the property called Carngham. Philip was a breeder of stud sheep, specialising in growing fine merino wool and for six years was president of the Ballarat Agricultural and Pastoral Society. He entered exhibitions all around the world as demonstrated by his many awards medals.

OBE: Supplement to LG 1/1/1919, p 94 to Capt. (A./Major) Francis William Trott, M.C.

Francis William Trott and his brother, Alan Charles Trott, attended St John's College, Cambridge. Francis Trott served as a Private in the University and Private Schools Regiment. In WWI he was commissioned into the Devonshire Regiment as a Second Lieutenant. He served in France from 25 July 1914 and was in the Battle of Loos. He was awarded the Military Cross (Gazetted in 1916) for capturing a field gun.

In The Western Morning News on 5 April 1919 part of an article reads, 'The gunners were, on the orders of Lt. Trott - a gallant officer whose bandaged head

and bloodstained face bore evidence of an earlier wound - taken prisoners and sent to the rear The back of the town was packed with the enemy. They had expected the attack, and had made every preparation to resist it. So strong was their defence that within a very short time the Devons were only a handful of fifty men with captain Gwynn and Lieut. Trott, and at a quarter to nine the order was given to retire from the town and dig in just outside. Whilst they were falling back more men fell, Capt. Gwynn was wounded with a bomb, and Lieut. Trott took command. In order to be able to put up a better resistance he withdrew again slightly, and the men who were left, firing from their knees, put up a plucky resistance. Then Lieut. Trott was again wounded in the hand, and the charge fell on Company Sergt.-Major Bryant.'

F.W. Trott was attached to the Royal Flying Corps (later the Royal Air Force) as Captain in February 1917 and was awarded an OBE in 1919. He was also Mentioned in Despatches. He served in Kohat and the North West Frontier in India and was promoted to Squadron Leader on 1 January 1926. He was commanding officer of No 28 (A/C) Squadron from 22 November 1931 to 19 March 1932. He was promoted to Wing Commander in 1934 and in 1938 was First Commanding Officer of No.1 Air Armament School in Lincolnshire having been appointed Group Captain on 1 January 1938. During WWII his RAF service included an appointment as Head of Air Mission in Washington and then as London liaison with the US Army from 1940 to 1945. He was awarded the USA Legion of Merit in 1946 and retired as a Group Captain on 16 April 1946.

- 4) A large number of b&w photos, air force related including aircraft, bomb sites and some featuring Botha. Some photos with signatures on reverse. DSO: Fourth Supplement to LG 22/9 1944, p4442 - to Flight Lieutenant Bernhorst Hermanus Botha, D.F.C. (155758), R.A.F.V.R., 50 Sqn.

Citation: Flight Lieutenant Botha has a notable record of operations. He has completed a very large number of sorties, both as an air gunner and pilot, against many heavily defended targets in Germany. He has at all times displayed great determination and courage in pressing home his attacks and has undoubtedly assisted in maintaining the high standard of morale in his squadron.

Recommendation: Flight Lieutenant Botha has now carried out a total of 105 operational sorties, 75 as an Air Gunner and 30 as a Pilot. From 20th April, 1940 to 18th November, 1940 he completed 30 sorties on Ansons and Beauforts with Coastal Command, from 18th November 1940 to 9th August, 1941, 45 sorties on Wellingtons with Bomber Command, all as an Air Gunner, and subsequently 30 sorties as Pilot and Captain of Aircraft with No. 50 Squadron. Not content with this magnificent record he has now volunteered for a fourth tour of operational duty with P.F.F. Flight Lieutenant Botha has operated against many of the most heavily defended targets in Germany, and has always shown the utmost determination and courage in pressing home his attacks. His outstanding record of achievement has been a wonderful example to other members of his Squadron and has undoubtedly assisted in maintaining their high standard of morale. Apart from many instances of gallantry and exceptional ability, Flight Lieutenant Botha has established a record of long continued offensive action against the enemy, both as an Air Gunner and Captain of Aircraft which must be almost unparalleled, for few can have so fearlessly and untiringly done so much to attack and destroy the enemy. For this outstanding devotion to duty I strongly recommend Flight Lieutenant Botha for the award of the Distinguished Service Order.

DFC: Supplement to LG 27/6/1944, p3042 - to Flying Officer Bernhorst

Hermanus Botha (155758), R.A.F.V.R., 50 Sqn.

Citation: This officer has completed many sorties on his third tour of operations during which he has attacked a wide range of targets, including Berlin, Frankfurt and Stuttgart and other well-defended targets in Germany. He has at all times displayed outstanding keenness and his determination to press home his attacks has earned him many successes. Flying Officer

Botha has rendered loyal and devoted service and his example has been most inspiring.

Recommendation (by Group Captain J.N.Jefferson, Commanding RAF Station, Skellingthorpe): Flying Officer Botha, who has done two previous tours of operations as an Air Gunner, has now completed 18 successful sorties as pilot and has attacked such targets as Berlin (twice), Stuttgart (3 times), Frankfurt (twice), Leipzig and Schweinfurt. On the night of 22/23rd March, 1944, Flying Officer Botha was detailed for an attack on Frankfurt. Shortly after take-off his port inner engine became unserviceable due to a leak in the pipe line between the master fuel cock and the engine. The aircraft was at a height of 15,000 feet when the incident occurred. Finding that he was unable to maintain height on three engines with the full bomb load, Flying Officer Botha gave instructions to jettison 4 cans on

incendiary bombs. In spite of this set-back and, although his aircraft had not yet crossed enemy territory, he decided to continue and attack the target. When he found that by sticking to the original route he would be unable to maintain the planned time at the turning point, he directed the navigator to give him a course which would take him straight to the target; this involved flying across the Ruhr. The aircraft arrived over the target some ten minutes after the last time of bombing and at a height of only 10,000 feet. Nevertheless, Flying Officer Botha pressed home his attack and obtained a photograph of the target conditions. His cool determination in spite of enemy opposition has always been noteworthy and his enthusiasm for attacking the enemy has been a splendid example. For his outstanding devotion to duty he is strongly recommended for the award of the Distinguished Flying Cross.

Remarks by Base Commander (Air Commodore A.Heskell, No. 53 Base, Waddington): In my experience the case of F/Lt. Botha is unique as being the first Air Gunner to complete two operational tours and then return for a third tour as Captain of a heavy Bomber. I can confirm all that the Station Commander writes of him and consider that the award of the Distinguished Flying Cross would be suitable recognition for outstanding service. Very strongly recommended. It is regretted that more details of this officer's earlier tours are not available.

Remarks by Air or other Officer commanding (AVM R.A.Cochrane, No.5 Group): This officer has a magnificent operational record. He served in Coastal Command between April and November 1940, completing 30 trips on Ansons and Beauforts. From November 1940 until August 1941 he completed 45 trips on Wellington aircraft in Bomber Command, all the sorties being undertaken as an Air Gunner. MM: Third Supplement No.30431 LG 14 Dec 1917.

Recommendation by Brig-Gen E.Tivey, CO, 8 Aust Inf Bde: During the preliminary operations to the attack on Polygon Wood this N.C.O. was in charge of a party of 50 men carrying ammunition from Hooze Crater forward to the front line on the night of 26-27/9/17. When moving up for the first time they were caught in a heavy barrage and Sgt Burns showed exceptional leadership and bravery in delivering the ammunition without delay at the correct spot. They made two trips up and back a distance of one and half miles each way thus having to pass through the barrage four times. Not a man was lost and this was entirely due to the splendid courage and leadership of Sgt Burns. His courage and devotion to duty has at all times set a very fine example to all ranks.

CB: LG 4/6/1957 (13/6/1957) to Lieutenant-General Alwyn Ragnar Garrett, CBE, Australian Staff Corps.

Citation: Lieutenant-General Garrett has given over 36 years of distinguished service to Australia and the Army, both in peace and war. During the 1939-45 War he served overseas in the United Kingdom, the Middle East, and subsequently with distinction in operations in New Guinea. In the post war period he held successively the important appointments of Commander of the British Commonwealth Base and Brigadier-in-Charge of Administration at the Headquarters of the British Commonwealth Occupation Force Japan, Commandant of the Australian Staff College, General Officer Commanding Western Command, Deputy Chief of the General Staff, Adjutant-General, and General Officer Commanding Southern Command. In all these appointments Lieutenant-General Garrett has made a most valuable and lasting contribution to the well-being and efficiency of the Australian Army. His very high sense of duty, his devotion to the Service far in excess of normal requirements, and his efforts to improve the standing of the Australian Army, have been significant factors in the career of one of the outstanding General Officers of the Australian Military Forces.

Warrant Officer Class One Russell Bevington was born at Walsall, England on 15 February 1971. He enlisted in the British Army on 5 January 1988. Upon completion of training at the Junior Leaders Regiment in Bovington he was allocated to the Royal Army Pay Corps where he completed his initial corps and employment training. He was then posted to 2nd Field Regiment Royal Artillery in Germany. After a two year posting he was promoted to Corporal and served a six month operational tour with the United Nations in Cyprus. In 1991 he was posted to the Light Division Depot in Winchester as both a section commander recruit instructor and as an initial employment training instructor. In October 1993 he was promoted to Sergeant and posted as part of the Northern Ireland Training Team in County Antrim, Northern Ireland.

In 1995 he was posted to 36 Engineer Regiment in Maidstone and during his tenure he was deployed to Bosnia in 1996 as part of the NATO Implementation Force. Then in 1997 he was posted to The Light Dragoons in Germany and during this posting he completed a second operational tour in Bosnia. In January 2000 he was promoted to Staff Sergeant and posted to Army Training Regiment in Winchester as a recruit platoon commander. He was promoted to Warrant Officer Class Two in January 2002.

On 10 March 2003 he transferred to the Australian Regular Army. After a brief period at 1st/15th Royal New South Wales Lancers he was posted to the Army Recruit Training Centre at Kapooka as a Platoon Sergeant. After two years he assumed the position of the Training Warrant Officer within the Training and Assessment Cell and was promoted to Warrant Officer Class II on 1 July 2006. He was awarded a Commandant's Commendation for his work as a recruit instructor.

In January 2007 he was posted to the 1st Combat Service Support Battalion in the role of Company Sergeant Major. In early 2008 he was selected to be Company Sergeant Major of the Combat Service Support Team that deployed to Afghanistan as part of the 1st Mentoring and Reconstruction Task Force. In January 2010 he was posted to the 1st Aviation Regiment as Squadron Sergeant Major. He was promoted to Warrant Officer Class One in January 2012 and appointed Regimental Sergeant Major of 13 Combat Support Battalion.

MM: Recommendation: For conspicuous gallantry and devotion to duty during the operations 8th/9th August 1918. During the advance on Proyart Cpl. Lewis was in charge of a party of Signallers detailed to lay a line from Battalion Headquarters and keep in touch with Brigade Headquarters. During this operation the party was heavily shelled and two of his men were severely wounded. Cpl. Lewis, in spite of frequent breaks in the line, went back under heavy shell fire and repaired all breaks. Through this gallant N.C.O.s work Battalion Headquarters was connected with Brigade Headquarters very soon after the final objective was captured. Cpl. Lewis later in the day took charge of another small party, and in spite of heavy machine gun fire ran a wire from Headquarters to "A" Company Sector. This was responsible for getting valuable information back to Battalion Headquarters and saving the lives of Runners. Throughout the operations Cpl. Lewis worked extremely hard and ran great personal risk in maintaining communications.
